Base Station Omni Antennas 800 MHz/900 MHz

Omnidirectional antennas are the right choice for situations where you need to be in contact with sources that are in two directions or if you do not know what direction the signals are coming from. Standard data transmission omnis are fully decoupled antennas built on a copper laminate and housed in 0.100-inch wall fiberglass housings. They may be mounted right side up or tipped upside down depending upon the desired pattern. They also feature a very versatile clamp mounting system that fits most every situation you may encounter.

FEATURES AND BENEFITS

- Fiberglass enclosures
- Broadband performance
- Plated copper laminated radiator
- DC grounded
- Weatherproof designs with
- Omnidirectional UltraLink pigtail
- RoHS-compliant

APPLICATIONS

- M2M/IoT
- Two-way dispatch
- LoRa
