

D E S C R I P T I O NPRODUCT COVERED

\* Flexible Steel Conduit Connectors, Cat. No.207370-1.

GENERAL CHARACTER AND USE:

\* Cat. No 207370-1 is a straight type connector intended to secure 3/8 in trade size flexible steel conduit, to a 1/2 in trade size knockout. The conduit is assembled in the connector by turning it until the conduit meets the end stop. This device is for use where the temperature will not exceed the 105°C rating of insulating throat.

Cat. No. 207370-1 is also intended to secure 3/8 in trade size extra flexible steel conduit to a 1/2 in trade size knockout.

Installation instructions are given in Ill. 1.

\* Cat. No. 207370-1 was originally Cat. No. 123-A.

Cat. No. 207507-1 has been transferred to report dated May 5, 1978,  
Vol.2.
