

## BIOGRAPHY

### Vish Ananthan

President,  
Automation and Connected Living Sector

Vish Ananthan is President, Automation and Connected Living (ACL) sector of TE Connectivity. ACL is a leader in solutions that enable connectivity, safety, comfort, energy efficiency, and productivity in Factories and Process Industries, Commercial and Residential Buildings, Intralogistics, Rail Transportation, and Smart City Infrastructure. With a broad product portfolio and global engineering and manufacturing footprint, business divisions in ACL partner with customers to advance Automation, Electrification, Urbanization, and Digitalization trends. In addition, Vish is responsible for strategy and growth acceleration of TE's business with its global Distribution Channel network.

Previously, Vish led TE's Industrial equipment business as Senior VP & General Manager. In this role, he led significant portfolio, operations, and organization transformation and accelerated organic and inorganic growth of the business. Since joining TE in 2011, Vish has worked across different TE businesses and progressed through roles of increasing responsibility, including General Manager of the Surgical & Imaging division in TE's Medical business and Head of Strategy and M&A for Industrial Solutions segment, which includes TE's Aerospace, Defense & Marine, Energy, Industrial Equipment, and Medical business units.

Earlier in his career, Vish held product management and business development roles in Tata Group's industrial and high-tech businesses and was a member of the group's flagship leadership development program. Vish earned an MBA from Harvard Business School, graduating as a George F. Baker scholar, and holds a bachelor's degree in Electronics & Communication Engineering from College of Engineering, Guindy in Chennai, India.
