# INNOVATIVE PRODUCTS FOR
BUSINESS AND RETAIL EQUIPMENT APPLICATIONS

Drive affinity and loyalty for your hard working printers, copiers and retail equipment with reliable and durable solutions. Low-cost and high-quality are key to the success of critical business and retail machines. Our proven sensor solutions and compact, next-generation connectors – for everything from 3D printers, to point of sale (POS) systems, and more – can help you deliver reliability at a competitive price.
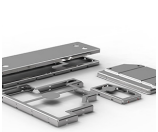

ANTENNAS
Accommodate numerous sets of frequency bands for operation on most networks — in either regional or global markets

NECTOR M POWER SYSTEM
Offers a compact, easy to install, fully pluggable interconnect solution with low installation costs and a true plug-and-play interface
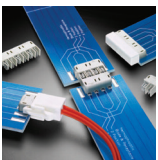

BOARD LEVEL SHIELDING
Minimize crosstalk and reduce EMI susceptibility with a lightweight and thermally conductive solution offered in cold rolled steel and aluminum materials

POWER TRIPLE LOCK CONNECTORS
Offer reliability with audible lock and 3 different locking mechanisms handling up to 20A in different materials to support various temperature and flammability ratings

HERMAPHRODITIC CONNECTORS
Offer low profile connectors that mate to themselves horizontally and vertically for lighting applications

SINGLE WALL FLAME RETARDANT (SWFR) TUBING
Provide electrical insulation and mechanical protection with halogen-free, UL-VW 1 rated irradiated polyolefin tubing

HUMIDITY SENSORS
Provide accurate measurement of dew point and absolute humidity by combining relative humidity and temperature measurements

TE connectivity
