

WHERE INNOVATION MEETS ACCURACY,
FOR BETTER PATIENT OUTCOMES.

INTRODUCING THE **HIGH RESOLUTION AD-102 AIR BUBBLE DETECTOR**

ENHANCING SYSTEM CONFIDENCE AND PATIENT SAFETY WITH OUR HIGH-RESOLUTION AIR BUBBLE DETECTOR

The High-Resolution AD-102 Air Bubble Detector (ABD) is the exceptional solution for medical manufacturers who prioritize the highest level of reliability, accuracy, and versatility in their fluid delivery systems. Our compact non-invasive sensor uses advanced ultrasonic technology to ensure intended fluid flow, enabling optimal system performance and improved patient safety.

TOP 4 BENEFITS

of TE Connectivity's AD-102 Air Bubble Detector

HIGH SENSITIVITY

Detect bubbles as small as 25% of tubing ID, critical for precise fluid delivery and patient safety.

CUSTOMIZABLE

Fits tubing sizes from 3 mm to 10 mm, with 6 mm as standard enabling the detector to be used in a wide range of medical applications.

NON-INVASIVE DESIGN

Eliminates sterility and fluid compatibility concerns, streamlining design, and enhancing usability.

HIGH NOISE IMMUNITY

Provides high noise immunity to ensure better accuracy and consistency in detection even in a high-noise environment.

AD-102 AIR BUBBLE DETECTOR APPLICATIONS:

- Dialysis Machines • IV Infusion Systems • Blood Transfusion Systems • Syringe Pumps
- Insulin Pumps • and more...

TRY FREE SAMPLES TODAY!

Experience the accuracy, reliability, and versatility of our AD-102 High-Resolution Air Bubble Detector for yourself. Click below to order your free samples today. Discover how TE's sensors can help elevate your medical device design. Experience the difference with TE Connectivity.
